

HEMINGWAYS' CAT'S music and lyric Steven Jaymes

It's a long way from New York to Nashville, and even further to the Keys
But there is one thing that keeps me going, one thing that will satisfy me, its

Chorus: Hemingway's Cats they're Wichita black and they're so filled with Attitude
Before I was born they were roaming the Streets and hangin' on Hemingway's Lawn

I don't always know what they are thinking, and I don't always understand what they say,
and every bar I've ever been into, drinking, they say this was there favourite place to play
They say

Chorus: Hemingway's Cats they're Wichita black and they're so filled with Attitude
Before I was born they were roaming the Streets and hangin' on Hemingway's Lawn

Now Papa was a traveling man, and he wrote in search of his own soul, the boy from the
oaks of Illinois wrote a legend tall and bold

Chorus: Hemingway's Cats they're Wichita black and they're so filled with Attitude
Before I was born they were roaming the Streets and hangin' all over the Lawn
Those six fingered freaks out roaming the streets and hanging all over the lawn
Hemingway's cat's roaming free.

It's a long way from New York to Nashville and even further to the Keys, but I think I'll just
keep on going till I find something that satisfies, satisfies me.

CRY music and lyric Steven Jaymes

I see you in that empty room, the look in your eyes I know well
There's strength in your solitude, but I know you're as lonely as hell
I see you light your cigarettes and look across the sky
I know that look on your face; I know you are going to cry
CHORUS Go on and CRY, let the tears fall down, Cry, just cry
If I could be your sorrow, and carry your pain
I'd creep into your dreams at night and let you know I'm not far away
If I could be the question to the answers you seek
And I could be your peacefulness when you lay yourself down to sleep
Chorus

Bridge: So much time together, too much time apart
I don't have to imagine you, woman I know well
But sometimes I to get as lonely as hell, and all I want to do is
Chorus:

EXPECTATION music and lyric Steven Jaymes

Chorus: We build a love out of expectation dreaming of floating on that endless sea but
when I gain the realization that everything I do to you I do to me.
Eyes so bright they could crown me, eyes so deep they would drown me
Across the hills and across the glens to be with you I would live again
Water so still when the minds alone moon softly reaches out to lead me home
Warm smile and a loving embrace that look in your eyes that look on your face
Chorus:

Bridge: And this story now so old for a thousand years has been told, the tale of you right
from the start has been etched in my mind and etched in my heart

Solo: Chorus:

MANHATTAN music and lyric by S.K.J.

It's as blue as your nights, as clear as the Oamaru sky's I was waiting for this, I was waiting for you to arrive
 It's like waiting for rain, such sweet release from the pain, and you cured with one kiss, all that I tried to resist

Chorus: You've been a long time coming, this sweet silent thought, that I crowned in my mind, mm Manhattan befriend me now

And all the we fear we gather and draw oh so near, deny or endure or maybe this time to kill or to cure

Chorus: You've been a long time coming, this sweet silent thought, that I crowned in my mind, mm befriend me

Bridge: And you will find, only reckless some of the time, but never, never surreal

Solo...Chorus.... You've been a long time coming, this sweet silent thought, that I crowned in my mind, mm Manhattan madness befriend me, long time coming, this sweet silent thought, that I crowned in my mind, befriend me now

Such a sweet silent thought....befriends me now.....this Manhattan madness.....Madness comes again, in the shape of a friend.

SEVEN music and lyric Steven Jaymes

Chorus: You love me tender but you treat me cruel, been a slave to your love like a seasonal fool, but this time you had better treat me right, cause I'm not going to give in to your lovin tonight:

You give me seven reasons why I should stay one for each and every day but you know these soft words just make me cry, why you hide behind this lovers disguise

Chorus:.....

There are seven colours for the seven days, but they are seven shades of blue for your mysterious ways, you hold me to ransom when you say you've changed, you hold me to ransom. Solo: Chorus:.....

HIGHER music and lyric Steven Jaymes.

Come walk with me by the riverside, come talk with me in the pale moonlight, come sit with me on a mountain side come play with me in the desert tonight
 And I will tell every one that you are my friend, and we'll be together, together till the end, cause you lift me

Chorus: Higher than I've ever been before, higher now I see so much more, higher I want you to know you lift me higher, I'm watching us grow

Come walk with me by the ocean side, come sit with me while the rain falls outside, ahh come lay with me in the candlelight, come run and play with me in the field tonight And I will tell every one that you are my friend, and we'll be together, together till the end, cause you lift me,

Chorus: Higher than I've ever been before, higher now I see so much more, higher I want you to know you lift me higher, I'm watching us grow

Bridge: And you would tell everyone, that I was your friend, and we'll be together,
together till the end cause you lift me higher..

Solo...higher ..higher.. I want you to know you lift me higher

Chorus: Higher than I've ever been before, higher now I see so much more, higher, I'm
watching us grow you know you lift me higher I want you to know you lift me
Higher than I've ever been before, higher now I see so much more, higher I want you to
know you lift me higher, I'm watching us grow, so much higher than we'll ever know

EMILY music and lyric Steven Jaymes

Emily awoke feelin kind of strange, not sure exactly what had changed
She just didn't feel like anything was real, was not going to be just another day
She went on down, to the corner store where she caught the bus the day the day
before, but when it came she just sat there in the rain and watched it drive on by.

Chorus: Emily smiles and Emily flies right out of the picture Emily climbs higher and higher
goodbye Emily, Emily goodbye.

Back on home to her box of thoughts everything that had caught her eye
Down to the bottom, the bottom of the top everything that had made her laugh or cry
Emily walked and Emily talked to everyone she passed that day it just didn't feel like
anything was real was not going to be just another day

Chorus: Emily smiles and Emily flies right out of the picture Emily climbs higher and
higher goodbye Emily, Emily tried but didn't make it she could no longer fake it she always
dreamed of something more, more or less, she wasn't waiting for the time for her spirit to
fly this was not just another day...Solo.. Chorus:.....
Goodbye Emily, Emily goodbye.

BIRD ON A WIRE music and lyric Steven Jaymes

You said you were leaving in the winter, you said you had heard the call
Said you were dreaming of an open space, where the setting sun was not just a shadow on
a wall, somewhere between the earth and the sky, you waited a while like a bird on a wire,
go on and

Chorus: Fly make a move, you've got nothing to hide you've got nothing to lose, Take your
time turn the wheel go on and fly.

You said there was a reason, you said it all just wasn't fate, you said if you watched and
you listened, you would see the patterns that you left in your wake,
Somewhere between the blue and the fire, we wait for a while like a bird on a wire,
Go on and Chorus:.....

LEAD YOU HOME music and lyric Steven Jaymes

How could you dream about this, how could you have ever known
Of all the roads you've traveled that this one would lead you home
Yes maybe it was written, maybe it was something you were shown
Maybe this is just the beginning of something you've always known

Was there ever a time when you were lonely was there ever a time when you were free
 And every choice you made was a new beginning, that leads you closer to me
 So when you dream about this don't forget you've always known no matter what road you
 travel there's always one to lead you home no matter what road you travel there's always
 one that will lead you home.

BELIEVE music and lyric Steven Jaymes

You may have your reasons you may have your doubts once you gave so much that you
 almost gave out, but there will come a time when you don't look down and before you
 know it loves back in town Chorus: Believe, believe love will find a way
 Back in your heart back in your soul creeping down so far and it wont let go, then you will
 remember that the stars still shine and loves there waiting, waiting all the time
 Chorus: Believe, believe love will find a way believe, believe love will find a way
 Bridge: Don't you worry don't you fret don't give up on love just yet, cause when you
 understand what you're waiting for that's when love comes knocking down your door
 So if you are feeling down and you don't know why, and everything makes you want to
 just break down and cry, just remember that the stars still shine and loves there waiting,
 waiting all the time Chorus:

NEVER MORE ALIVE music and lyric Steven Jaymes

Always said you would leave us, said you would never remain,
 I've lived with you every day and still can't speak your name
 With only a breath between us, between you and I
 We melt into the sun, never more alive
 Branded at birth, for this certainty senseless and restless at best
 This mortal comedy, with every creeping dawn and with every sigh,
 We melt into the sun never more alive.
 Not an ocean of tears nor a river of smiles could save you this time; no flowing praise nor
 veiled threats could change or beget a difference
 With only a breath between us, between you and I, we melt into the sun never more alive
 Never more alive, go on and fly ...

MOVIN' ON music and lyric Steven Jaymes

Don't you feel like don't you feel, don't you feel like movin on
 Don't you feel like don't you feel, don't you feel like movin on
 Don't you feel like don't you feel, don't you feel like movin on

All my brothers all my sisters wont you lend me your hands
 Cause with sweet, sweet lovin, we will grow and understand

Chorus

All my brothers yeah all my sisters wont you lend me your ears
 Cause when we listen to each other we will take away the fear

Chorus

CANDY music and lyric Steven Jaymes

The sun is shining but the rain is coming down another strange day in this shonky old town
another day of dirt and grind and who was it said that lovin was a crime

My name is Candy and I live down the hall you see me at night or you don't see me at all
and sometimes you wonder

There are places we go we don't speak of at all dark corners of the mind indulged in dark
corners of the hall

A mistress for hire when your love grows cold when there's children to be fed and your
dreams have all been sold

My name is Misty and I live down the road you see me in the morning when I'm coming
homes a place of so many a room so filled with sinners and saints under one roof, times on
hire and loves on trial woman in windows but where lives the child

My name is Candy and I live down the hall you see me at night or you don't see me at all

My name is Candy you know it so well but in the light of the day it's another story you will
tell and sometimes I wonder, yes I wonder
